

**WELCOME
TO
PRIMUS**

OUR NEW FRIEND!

We invite you to read our guide and companion for the most interesting places in Wrocław related to your new school.

Wrocław is a large and beautiful Polish city, located in Lower Silesia. Its area is almost 300 km², and the number of its inhabitants is exactly 639 258. (Along with you there is already one more person :-)

This data shows how important the city is. Its size and complexity make it easy to get lost in it. For this reason, we have created a practical, transparent guidebook for you and a guide for the nearest neighborhood. You will find there information about many interesting, important and attractive places. You will also find answers to the question of where to go in the event of problems or to satisfy other needs equally important to you. In our guide we will also post information on how to get to these places and we will contact you with people from our school, who will serve you with kind advice and help.

We hope that our guide will appeal to you and your loved ones, as well as support you during your stay in the beautiful city of Wrocław!

Primus students

Who can help you?

Wiktor Whitney (class 7 B) is a person you can ask about all matters related to the life of students. He will be happy to tell you about extracurricular activities at our school. Wiktor will help you communicate with other students and arrange formalities at the school office and other public institutions.

In case of any trouble, you can always knock on the teacher's room and ask Ms. **Natasza**. Our teacher will be happy to help you solve problems related to the curriculum, explain the complexities of the Polish language, talk about the traps and customs of our national culture.

Bartek is one of the best students in our school, he will certainly help you in learning, he will support you in the project, help to resolve conflicts and make contacts with peers. He will show you ways of spending your free time and show you around the most interesting places at school.

F

U

N

ZOO: There is no need to present this object. Wrocław ZOO is the most popular tourist attraction in Poland. In terms of the annual number of visitors, our zoo has even overtaken Wawel and Wieliczka ... taken together. And no wonder - only at the zoo in Wrocław you will see a hippopotamus in the aquarium.

KOLEJKOWO (RAILWAY): there are many great tourist attractions in Lower Silesia (Dolny Śląsk), but before you get to know them all by yourself, you can view their miniature versions. The extremely precise model is located in the historic building of the Świebodzki Railway Station and has been attracting crowds of train fans for years.

THE MOST POPULAR WROCLAW DWARF TRAIL - leads us through the historic places and streets of the Wrocław city centre .. Especially recommended for trips with younger children, who have a lot of fun finding the next fairy-tale inhabitants of our city. The best idea is to start from your walk a dwarf the Butcher.

SKY TOWER: - This is one of Wrocław's showcases and the second tallest building in Poland. It is a complex where you will find a shopping center and a lot of entertainment - for example a very popular bowling alley. From the vantage point (located on the 49th floor) you can have a look at the entire Wrocław. Owing to the information boards, which describe in detail the Wrocław panorama, you get the information what you are looking at.

SPORT

POOL: For – those who like swimming - with a clear conscience, we can recommend a new indoor swimming pool at Górnickiego Street with the cleanest water in Wrocław - entry costs 14 PLN . This attraction can only be used at weekends and in the afternoons

If, however, you want to learn more about history and admire the interiors in which, as the urban legend says, German high-ranking officers were organising a terrifying game, we invite you to the **swimming pool complex at Teatralna Street.**

BIKES: Wrocław cycling routes are a great sporting option. The routes leading through the embankments of the Oder are particularly picturesque, and let you to admire our city from a completely different perspective. Numerous outdoor gyms that you will find in many parks and squares in Wrocław, complement this attraction.

WATER SPORTS: In many places in Wrocław you have the possibility to rent kayaks or waterbikes. Many of these places are in the vicinity of our school, and the most interesting is probably at the Zwierzyniecka footbridge. It is near the ZOO, and maybe when sightseeing the ZOO you can try this water recreation. As Wrocław is the "city of hundred bridges", it has a very extensive network of rivers and canals. Thanks to it you will be able to sail on many different routes and each time discover new parts of the city from a new, previously unknown perspective.

CULTURE

THE BUILDING OF FACULTY OF ARCHITECTURE OF WROCLAW UNIVERSITY OF TECHNOLOGY: If you are a fan of beautiful buildings and TV series "Belfer", you should visit this extraordinary place. After the architectural experience, you can relax in the nearby picturesque park of Stanisław Tołpa, watching ducks and other Pokemon hunters :-)

CAPITOL: there aren't only the world-famous musical events, but also free yoga sessions in which all residents of the city can participate. The backyard of Wrocław Capitol has been the place of the most interesting social animations for years.

CENTENNIAL HALL: The hall, inscribed on the world list of UNESCO heritage, is yet another Wrocław landmark with a very rich history. Suffice it to say that this place hosted both Adolf Hitler and Pope John Paul the Second. Currently - until 18 June this year in the Centennial Hall, there is a space exhibition under the patronage of NASA. Next to the Hall there is the largest multimedia fountain in Poland, where shows are held almost every day. There is also the Japanese Garden in the area. It is a perfect place for everyday rest and relaxation of Wrocław residents and numerous tourists.

HYDROPOLIS: Hydropolis, or the Ecological Education Center, is a modern facility, created in 2015, where visitors can learn about waterways in Wrocław, as well as events related to the Oder river and its tributaries, which influenced the history of the city. You will learn much about the Millennium Flood in 1997, for example.

COMPUTER MUSEUM: This place was created by fans of old computers and old computer games. The display includes a rich collection of equipment, which has been already forgotten. If you go there with your parents, they will have a great opportunity to immerse themselves in memories. Furthermore, you will be able to see how and what people played in 1980'.

Food

HOME MADE DINNERS: Very close to our school there is a family run diner which owners are very nice. The name reflects the reality - lunches are made using home-made methods and taste exactly like home-made food. If you are very hungry and you fancy a plate-sized pork chop, we recommend you this place without hesitation.

RAGU: The second name of this restaurant is: "Pasta Studio". It is very close to our school - just around the corner of Matejki Street. You can eat pasta in various flavors and varieties. Moreover - you can also try delicious soup or dessert there (eg shake). The food is fresh and prepared on site. However, due to the high quality and time of preparing dishes, the restaurant is not the cheapest. Nevertheless, it is definitely worth visiting.

PIEC NA SZEWSKIEJ (szewska pizza oven): This is a great pizzeria, located (I know it is shocking) on Szewska Street, near the Main Square, opposite the Ossolineum Library. The restaurant is open from Tuesday to Sunday, however, as it's a well-known place among the residents, weekend space must be booked in advance.

MCFALAFEL: According to many, you can eat here the tastiest gyros in Wroclaw. This small place with a long tradition and a fixed set of dishes still enjoys the undiminished popularity among residents and students of the surrounding universities.

MIKRUS BAR: You can find there the cheapest dinners in the centre. A portion of dumplings or pancakes costs only 5 PLN here. Local residents definitely recommend this place, where for very little money you can eat very tasty and always fresh meals.
